## Meta Health supports the development of Bali as a medical travel hub within Indonesia

Picture with Head of the government tourism office in Bali, Tjok Bagus Pemayun (third from right), and the 5Digital team at the launch of health tourism services with the opening of branch office of Digital Hospital in Bali, Indonesia.

- **5Digital launched the Digital Hospital products in Bali to support Bali as a medical travel hub within Indonesia<sup>1</sup>.**
- **Bali, the host of the G20 Summit in 2022, has been designated as a medical travel destination by the Indonesia Government, with recent announcement of an International Hospital with US' Mayo Clinic in Bali<sup>2</sup>.**

**Singapore, 6<sup>th</sup> April 2022** — Catalyst-listed Meta Health Limited (“**META**” or the “**Company**”, and together with its subsidiaries, the “**Group**”) is pleased to provide an update on the Group’s business development in Indonesia helmed by its healthcare platform company, 5Digital Pte Ltd (“**5Digital**”). 5Digital launched its second office in Indonesia with PT Gaido Digital Medika (“**PT GDM**”) in Bali, following closely after its investment in November 2021 with an office in Jakarta. In January 2022, PT GDM launched a trademarked

product called “Digital Hospital” in Indonesia (the “**Launch**”). This is on the back of strong confidence in the rapid push for digitisation in the healthcare sector in Indonesia, as well as the drive for smarter hospitals with products shared from 5Digital’s other platform investments announced earlier with MedTel in October 2021. Digital Hospital has gained significant traction, with the announcement by G20 business council of Digital Hospital being identified as a partner of the Indonesian Tourism Medical Association in early March 2022<sup>3</sup>. Indonesia is chairing the G20 Summit this year, with Bali as host city for the summit in November 2022. Indonesia’s President, Joko Widodo had identified Digitisation and Healthcare as core focus areas, and recently launched an International Hospital to be built in Bali with Mayo Clinic from the United States. This is seen as an opportunity to reverse Rp 97 trillion (about US\$6.8 billion) spent by 2 million Indonesians who were going to countries like Singapore, Malaysia, Japan, or the US for medical treatment yearly<sup>4</sup>. With the reopening of borders, there is a race to upgrade and provide options for higher quality local treatment options within Indonesia. The Bali office for PT GDM is complimentary to this policy and provides a capacity for 25-person managed care and call center to help the company provide aggregation of medical tourism packages from its hospital partners and concierge services to travel insurance and other corporate partners.

Chief Executive Officer of PT GDM, Dr Putro S Mohammad, commented: **“We have engaged several private hospitals in Jakarta and now in Bali with 5Digital’s support on platform and partnering leading equipment vendors, to digitise and scale up their operations with international quality and provide our local population as well as potential visitors with products on par with leading hospitals in the region. We thank Tjok Bagus Pemayun, head of government tourism department in Bali, for gracing our launch event and supporting Bali as the medical tourism hub within Indonesia.”**

5Digital’s Chief Medical Officer, Dr Vas Metupalle, who attended the Launch, added **“We see opportunities beyond telemedicine and ePharmacy services, with the smart hospital initiative we launched, and the increasing acceptance for our partnership approach. We intend to increase our focus this year on managed care services and leveraging on data with our hospital partners in Indonesia to launch combined products we can market through the multiple online and offline channels.”**

-End-
